
It is notable to mention that, with the help of Camtasia, you can mix and match screens and camera shots! This allows you to create a video that appeals more to your audience. You can also record voice-over tracks or soundtracks. The videos will never feel outdated because not only does it store copies on your local hard drive but it also stores them in the cloud! For those who need Mac support, check out Camtasia Studio 2018 for Mac! Camtasia Studio 2018 Full Version is available for Windows 10 PCs as well as for Apple Macs running macOS High Sierra (10.13) or later. It is also compatible with Windows and Mac and comes with a lifetime license. The software has been used to create tutorials, marketing videos, whiteboard explainers, sales training videos and screen recordings. It comes with multiple editing effects which you can use to spice up your video! All the transitions and animations are so smooth that you will be spoilt for choice! Camtasia Studio 2018 Full Version enables you to import images, audio files and videos from your computer as well as other platforms like Flickr, YouTube and Facebook. You can also ask people on the internet to send verifications of their email address or social network account that you can then use in your video. The entire process is so seamless that you will be able to create amazing videos in no time! With Camtasia Studio 2018 Full Version, you also have the option of creating dynamic presentations. This feature allows you to create a slideshow that would be relevant to your viewers. You can narrate over it or throw in pop-ups that will let your visitors know what they are looking at. The slides can be anything from images to videos making this an ideal software for all types of presentations. The software also has a 60-day free trial period after which, if you like the software, you can purchase it at \$299 for single non-profit use or \$699 for unlimited commercial use license. The purchased license is valid for as many as five computers which includes PCs as well as Macs. Its biggest competition is the more advanced ScreenFlow, which has more powerful features. Camtasia Studio 2018 has been featured on the App Store, and it also has a 4.8-star review on Amazon.com and a 4.8-star rating on CNET's Download.com .
