DevExpress VCL Components For.rar

The screenshot displays the Delphi 10.1 Berlin software interface. At the top left is the DX logo. The main title is "Delphi® 10.1 Berlin". Below it, the text "Architect Registered" is visible. The background is a cityscape at dusk. The interface lists three installed components:

-  Devart Universal Data Access Components 7.2.5  
Licensed
-  ReportBuilder Enterprise 19.02 Build 243
-  DevExpress VCL 18.1.4  
Registered

At the bottom, it shows "Loading package dcldxPSdxLCLnkRS25.bpl" and the Embarcadero logo. The copyright notice at the bottom reads: "Copyright© 2016 Embarcadero Technologies, Inc. All Rights Reserved."

NET Controls. New features, improvements, fixes and enhancements are constantly implemented to make these controls the top choice for Delphi, C++Builder and RAD studio developers. Uses of this component: License Share In an effort to provide enhanced features to further improve the VCL components product line, we are currently offering a shareware licence for the components. Following is the detailed breakdown of our shareware licensing and the benefits of this shareware licence: Our shareware licence (VCL - Shareware) allows you to evaluate the component for 30 days. You are not required to purchase any licence. You will receive the source code for this component for a specified period. You will receive a support licence for the product for a specified period. You will receive a hoster licence for the product for a specified period. Features and benefits of our shareware licence for the components: If you purchase this shareware licence, you can download the component from this website. We strongly recommend that you purchase this shareware licence for our components. You can purchase this shareware licence for the components from the following website. Our source code can be obtained following these steps: Download the installer. Click on "Extract" in the "Windows Installer (.msi)" file. This will automatically extract the components for you. This software is released as shareware and is not to be redistributed without prior written consent of our customers. Please note, if you make modifications to the components or utilise this software in any other product, you must first contact us for permission and prior written consent. Note that we have already compiled a list of the component names, names of the companies and their contact details. The development team have also attended a number of conferences, met with clients and other organisations that have used our components. Our products are guaranteed to be free of major defects, and our developers try to keep the components up to 82157476af
