Titleist 910D2 drivers, released in 2010, feature a 460cc full-pear shaped head designed for maximum playability and forgiveness, promoting a straighter ball flight with higher launch and low-to-mid spin.. I tried the 907 D1 with the VS Proto 60 stiff flex shaft and the distance is shorter than traditional drivers.. Moderate swing speed players will benefit from the new Straight Flight Weighting (SFW) technology that helps to reduce fade flight.. var K = new
